

IEC Georgia 2014-15

Emerging Leader Program

Preparing our future leaders for tomorrow is a vital part of both your company and the electrical industries' continued success. The program is based on John Maxwell's leadership material.

Through monthly leadership sessions participants will explore major laws of reaching their potential. For individuals striving to reach their potential and become leaders, they first must make a positive impact on their family and community. To do this you must be aware of your actions and how they impact other people. The program will benefit participants by providing a framework and path for them on how to continually growth and meet their potential.

About John Maxwell

Considered today's #1 Leadership Guru, he has written 73 books on leadership, selling more than 21 millions copies, and is a New York Times bestselling author. Two of Maxwell's books are used in the program: "The 15 Invaluable Laws of Growth" and "The 21 Irrefutable Laws of Leadership."

About the Facilitator—Michael Hinds

Michael, a John Maxwell certified trainer, will facilitate the leadership portion of the program. For several decades Michael has coached, trained and spoken to both small and large groups on developing leaders within many types of organizations.

(www.michaelhinds.com)

A variety of professionals will also present information in the following key competency areas, where participants will also be provided an opportunity to practice and develop skills:

- ◆ Human Resources
- ◆ Financial Management
- ◆ Marketing
- ◆ Legal Issues
- ◆ Political Process & Lobbying
- ◆ Technology
